RE: WQCD CDPS Permit Renewal application for
COG315000-Remediation activities discharging to surface water
Certification number COG315289

The Water Quality Control Division received an application from 100 Saint Paul LLC for COG315000-Remediation activities discharging to surface water permit renewal on 3/3/2015. The application requests discharge authorization for 100 Saint Paul located at 100 Saint Paul Denver Facility SIC 1611.

The application has been reviewed and is considered complete for the purposes of filing. The Division has not verified all of the information contained in your application and has relied upon your signed certification to determine that the information is true, accurate, and complete. No permit has been issued at this time.

In the event that the Division does not issue a renewal permit in advance of the permit expiration date, the expired permit shall be administratively extended and continue in force to the effective date of the new permit.

This is official notice of your eligibility of administrative extension and the permit shall become administratively extended on the date following your permit expiration. The permits duration may be extended only through administrative extensions and not through interim modifications.

The application will undergo a technical review once it is assigned to a permit writer. At that time the Division will contact you to inform you that permit renewal process has started and may request additional information in order to further evaluate the technical information included in your application and evaluate the discharge.

We have the following contacts on file, if any of this information changes from the date your application was submitted until we issue your permit, please send a revised application/change of contacts form

Permittee Contact the person authorized to sign and certify the permit application. This person receives all permit correspondences *[including invoice; is contacted for any questions relating to the facility; and receives DMRs as appropriate]* and is the person responsible for ensuring compliance with the permit
